CAREER OBJECTIVE

To leverage my expertise as a Java Full Stack Developer in crafting innovative and scalable web solutions, while continuously expanding my knowledge and skills in emerging technologies. With a passion for problem – solving and a commitment to delivering high – quality software, I aspire to contribute to dynamic teams where I can make a meaningful impact on projects and drive business success.

TOOLS

- **IDE Tools**   :   VS Code, Eclipse IDE, MySQL Workbench
- **Framework**   :   Bootstrap
- **Scripting Language** :   JavaScript, Java
- **Web Technologies**   :   HTML, CSS
- **Database**   :   MySQL
- **Operating System**   :   Windows

SKILLS

- HTML
- CSS
- JavaScript
- Bootstrap
- SQL
- JAVA

AREA OF INTERESTS

- Cloud Computing
- Fronted Developer

ACADEMIC QUALIFICATION

- **B.E Computer Science & Engineering,** Sengunthar Engineering College-Tiruchengode, 2024, **CGPA 8.4**
- **HSC,** SVC Matriculation Hr Sec School , Krishnagiri, 2020
- **SSLC,** Sri Bharathi Vidhyalya Matric Hr Sec School, Dharmapuri, 2018, **75%**

INTERNSHIPS

Completed Java Full Stack Development Course in Besant Technologies Bangalorefor 6 Months.

PAPER PRESENTATION

- Karpagam college of Engineering
- Mahendra Engineering College

PROJECTS

- **Title –** Automatic Question Paper Generator, **Tools** – XAMPP Server, PHP , MySQL

    Purpose of my project is to develop a system that can automatically generate a question paper. An Automatic Question Paper Generator system will allow college officials to automatically generate papers from an existing database of questionnaires. This system will have the ability to process different paper sets by default. The software is very useful for small and medium sized institutions. The software will use the database to compile a questionnaire where the database can contain thousands of queries. The software will generate random paper in such way that the question does not repeat itself.

- **Title –** Personal Portfolio, **Tools –** HTML, CSS, JavaScript.

    A proficient Java full stack developer skilled in HTML, CSS, JavaScript , adept at crafting responsive and dynamic web applications. Passionate about clean code practices, problem- solving and staying updated with emerging technologies to deliver high – quality solutions

    Link: https://thamilarasik.github..io/portfolio.github/

- **Title –** Ecommerce Cake Shop, **Tools –** HTML, CSS, JavaScript ,Bootstrap.

    Ecommerce website using HTML, CSS, JavaScript to order the cakes adept at crafting responsive and dynamic web applications. Passionate about clean code practices, problem- solving and staying updated with emerging technologies to deliver high – quality solutions

    Link: https://thamilarasik.github.io/cakeshop.github.io/

WORKSHOP & SEMINAR

- Participate and completed **Cloud computing** workshop in Sengunthar Engineering College, Tiruchengode.

- AI for India 2.0 at Guvi

- Participated at International Conference on **NEXGEN TECHNOLOGIES & MEEMIC**

CERTIFIED COURSES

- Python at Guvi

- Introduction of data Engineering and big data at Guvi

- Git & Github at Geekster

- Web technologies at Extol Tech Solution

- Pc hardware & Troubleshooting at Extol Tech Solution

- Cloud Computing at Foss Club

- Web development at Alpha Tech Acadamey

- Python &SQL at Alpha Tech Acadamey

DECLARATION

I hereby declare that all the information furnished above is true to the best of my knowledge.
